#### THE RECRUITING MARCH FROM GILGANDRA TO SYDNEY.

The great recruiting march from Gilgandra to Sydney, a distance of about the whole length of the Empire, is the subject of the picture in this illustration. The march started about the "midnight" of the 1st of July, and is expected to reach Sydney on the 11th of the month. The march is being organized by the "Recruiting Committee," and is being supported by a large number of "Recruiting Committees" in the various towns and cities. It is expected that the march will be a great success, and will result in a large number of recruits for the "Imperial Army."
